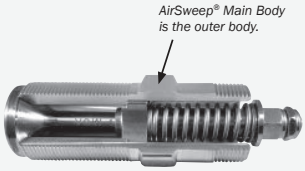
7-YEAR WARRANTY ON ALL AIRSWEEP® UNITS

Control Concepts, Inc. provides a 7-year warranty on the AirSweep Unit Main Body.

The AirSweep Internal Spring has a life expectancy of at least one million cycles whereupon an AirSweep Spring Kit is recommended. Depending upon how the timer control is set and the number of shifts per month, the spring life may last many years – typically 2 to 7 years. The Spring Guide, Valve Stem and all other internal parts should be visually inspected for wear with each Spring replacement; if noticeable wear is present, we recommend an AirSweep Rebuild Kit.

If the above-described proper maintenance of the complete AirSweep unit is performed, Control Concepts, Inc. will replace the AirSweep Main Body free of charge (not including shipping and/or duty) if it fails during the 7-year period.

*** AirSweep Main Body**



**** AirSweep Rebuild Kit (RK)**

AirSweep Spring Kit contains 1 each: valve stem, spring guide, compression washer, compression spring.
