

7 YEAR WARRANTY ON ALL AIRSWEEP[®] UNITS

Control Concepts, Inc. will provide a 7-year warranty on the AirSweep[®] unit Main Body. The AirSweep[®] internal spring, spring guide and valve stem have a life expectancy of at least one million cycles whereupon an AirSweep Maintenance Kit is recommended. Depending upon how the timer control is set and the number of shifts per month, the spring life may run to many years – typically reached within 2 to 7 years.

CCI will send your company a reminder, based upon your Application Data Sheet (ADS), to check the condition of the AirSweep and its spring and spring guide. If proper maintenance of the complete AirSweep unit is met, CCI will replace the AirSweep Main Body free of charge (not including shipping and/or duty) if it fails during the 7 year period.
